

Keynote Speakers

SIEMENS

Volker Tresp

Professor, Ludwig Maximilian University of Munich
Principal Research Scientist, Siemens

"Learning with Memory Embeddings and its Application in the Digitalization of Healthcare"

2016.semantics.cc/volker-tresp

OXFORD UNIVERSITY PRESS

Cathy Dolbear
Senior Link Architect

"Enriching content with user data and semantic information"

2016.semantics.cc/cathy-dolbear

Marie Wallace
Analytics Strategist

"How does 'The Semantics of the Human Network' sound?"

2016.semantics.cc/marie-wallace

Lydia Pintscher
Head of Wikidata

Keynote at DBpedia Day

2016.semantics.cc/lydia-pintscher

SPRINGER NATURE

Michele Pasin

Product Manager, Knowledge Graph

"Linked data experience at Springer Nature: Building discovery services for scientific and scholarly content on top of a semantic data model"

2016.semantics.cc/michele-pasin

12th International Conference on Semantic Systems

SEMANTiCS

Leipzig University
Sept 12–15, 2016

The Linked Data Conference

<http://2016.semantics.cc>

PROGRAM

12th

Tutorials & Workshop Day

13th

14th

**Main Conference and
LEDS industry track**

15th

Tutorials & DBpedia Day

@SemanticsConf

At the annual SEMANTiCS conference experts from academia and industry meet to discuss semantic computing, its benefits and business implications.

Since 2005 SEMANTiCS has been attracting the thought leaders in semantic web and big data technology ranging from information managers and software engineers, to e-commerce experts and business developers as well as researchers and IT architects – to define the future of information technology.

- ▶ **MEETUP** "Big Data and Linked Data – the Best of Two Worlds"
Monday, September 12, 2016 at 7:00 pm
Leipzig University, Foyer of New Augusteum

On the eve of SEMANTiCS conference, this meetup gathers experts on Big and Linked Data to discuss the future agenda on research and implementation of a joint technology development.

- ▶ Moderation: Sören Auer (BDE, BDVA)
- ▶ *Linked Data as Part of the Big Data Landscape* by Pascal Hitzler, Director of Data Science at Wright State University in Dayton, Ohio, Editor-in-Chief of the Semantic Web journal (by IOS Press)
